

Amendment to the previous DCI® BNP Paribas ENHANCED Manual

The committee governing the DCI® BNP Paribas Enhanced has decided to do the following changes:

- To reflect changes in liquidity figures, the TOCOM Platinum contract will be replaced by the NYMEX Platinum contract.
- The committee has also decided to add a new rule in the Initial Weights calculation process:

The Initial Weight in year n , $IW(n)$, of a component can not exceed 2 times its Initial Weights in year $n-1$, $IW(n-1)$.

This new rule has been defined in order to limit a huge increase of each component:

So if $IW(n) \geq 2 \times IW(n-1)$ then $IW(n) = 2 \times IW(n-1)$ and the “excess weight” will be reallocated proportionally to other components

This new rule has been defined to enhance the DCI® replication.

Those changes will be implemented during the January 2010 roll period.

DCI® BNP Paribas Enhanced Initial Weights 2010
